

PBR0406 Battery Charger

The PBR0406 battery charger is specifically designed to charge the PBR0406 battery.

It can charge up to 8 batteries simultaneously, and provides charge status and over-current protection for each battery port.

The batteries are connected via 'drop in' charge bays, providing a neat battery display and easy view of the charge indicator LED's. Battery retainer clips hold the batteries securely while transporting.

Features

- 10 - 32VDC input
- Charges 8 batteries simultaneously
- Battery port over-current protected
- Charge status indicator LED's

Specifications

Input Voltage	10 – 32VDC (AC input optional, see below)
Size	L 400mm x W 250mm x H 80mm
Weight	8Kg

Part Numbers

BA09-0120	8 bay charger, 10 - 32VDC
BA09-0121	8 bay charger, 10 - 32VDC and 220VAC
